Record of Changes

When changes are made to this document, the following procedures will be followed:

1. Changes will be issued by the Inter-Agency Strategic Planning Cell at IEMA-OHS and transmitted to agencies, personnel, and other designees specified by the IEMA-OHS Director or designee via electronic means.
2. When a change is made, an entry will be made in the following log:

CHANGE NUMBER	DATE ENTERED	PAGES OR SECTIONS CHANGED	ENTERED BY
1	May 2026	Biannual Review	Glenn Smith

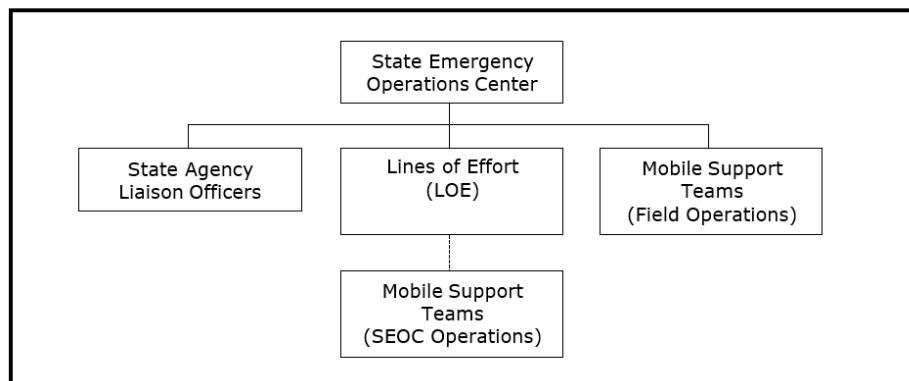

1. Concept of Operations

1.1. General

- 1.1.1. State-supported operations are scalable and modular based on the scope and magnitude of the event, and the ability of an Authority Having Jurisdiction (AHJ) to conduct operations.
- 1.1.2. State utilization of MST is designed to augment efforts of the state and local governments and private sector organizations.
- 1.1.3. The SEOC or designated state organizational element will provide technical and logistical assistance to activated or deployed MST.
- 1.1.4. Personnel assigned to MST operations will be trained in the assigned mission and, to the extent possible, be made aware of potential risks involved.
- 1.1.5. MSTs are responsible for training personnel in requirements and processes.
- 1.1.6. The state will proactively move MSTs, appropriate to the event, to designated state field locations and Areas of Operation (AO).
- 1.1.7. The state will use pre-identified and ad hoc locations for staging and sustainment of MST in support of operations.
- 1.1.8. Procedures for utilization, control, and use of MSTs will incorporate and/or consider operational priorities that include, but are not limited to, the protection of life, public health and safety, property protection, environmental protection, restoration of essential utilities, restoration of essential program functions, and coordination as appropriate.
